

About Mission Health Partners

Mission Health Partners (MHP) is a patient-centric and physician-governed network of clinicians, hospitals and other healthcare providers, working collaboratively in an evidence-based manner to improve patient care and experience, decrease cost and ultimately drive positive changes in the health of the residents of western North Carolina.

MHP is among one of the largest ACOs in the country, covering 47,000 Medicare beneficiaries. MHP also covers 16,000 lives through the Mission Health employee benefits plan and some 5,500 patients attributed through Humana Medicare Advantage. We are currently accountable for the cost and quality of care for roughly 8 percent of western North Carolina. For more information, please visit missionhealthpartners.org.
